[4 786 962.00 US US\$]

Akbük RES is located in Aydın city, Didim province's Akbük village at Saplatan Mountain area. In order to reach to the location where the 31.5 MW installed power facility would be constructed; 5.5 km road construction was realized. 100 000 m² area, where 15 wind towers would be seated, was arranged and tower foundation were constructed. Together with those works, the switchyard and control building constructions, required for the conveyance of the produced power to the international transmission line, were performed.
